FATAL CONFLICT

Fatal conflict were formed back in Dec 81. The line up was Ady-Vocals, Jas-Bass (Ady's old schoolfriend), Rab-Drums, Eeny (Ian)- Guitar, Sid-Rhythm. They did a demo with this line up and sent to a few companies: But they heard nothing ! Sid and Rab left for better things(they hoped) and Daim and Dan joined on vocals and Guitar. I decided to help them on the Drums until they found a drummer (which they still havent found yet). Not to long after that Dan left from playing Guitar to occaisionally doing their artwork and the line up changed to Ady-Vocals, Jas-Bass, Gem-Drums (temporarily), Daim-Vocals and Eeny- Guitar (occaisionally). Their songs are genrally about Anti war, Anti drugs, Anti government... And some of their songs are on a new compilation called Protesting but dont judge them by the tracks on the tape as they have since improved their sound. Soon their first demo will have been completed.

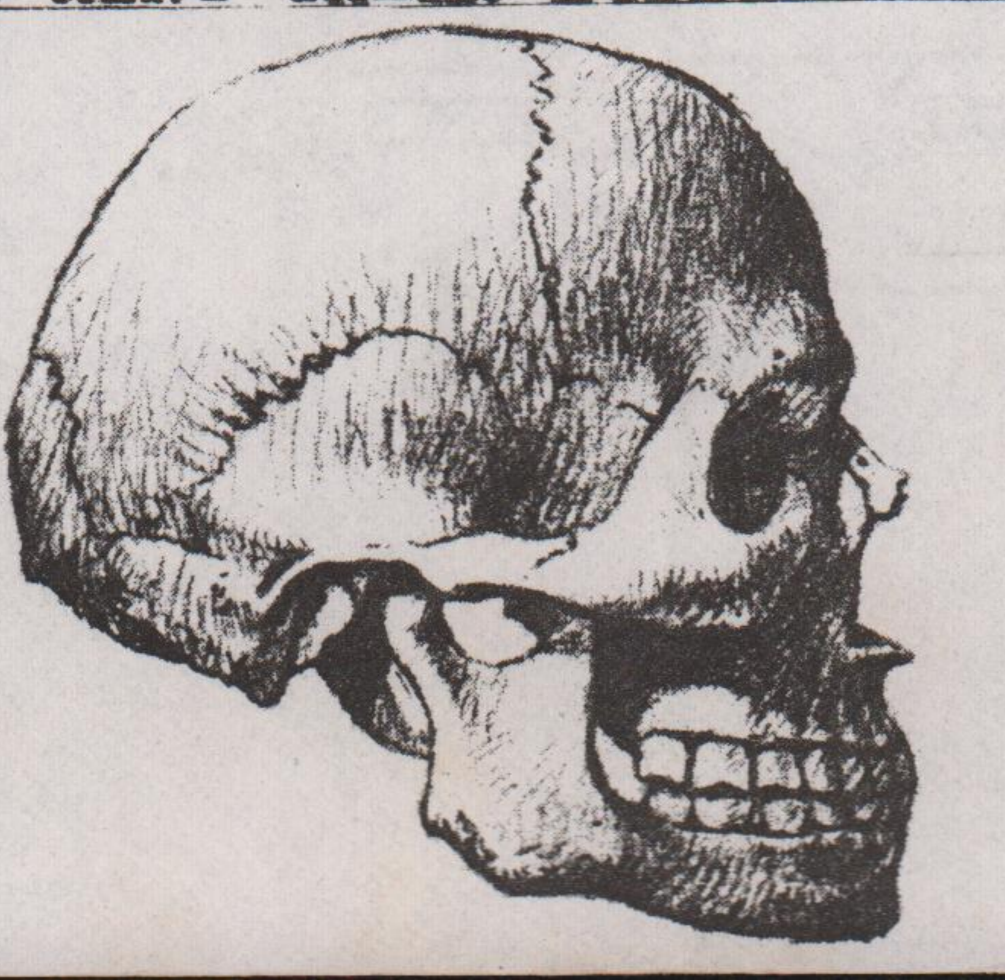

If you want some info about Fatal conflict send large S.A.E to Ady, 20 MALVERN AVE , SPALDING, LINCOLNSHIRE, PE11 2DG.

POLLUTION

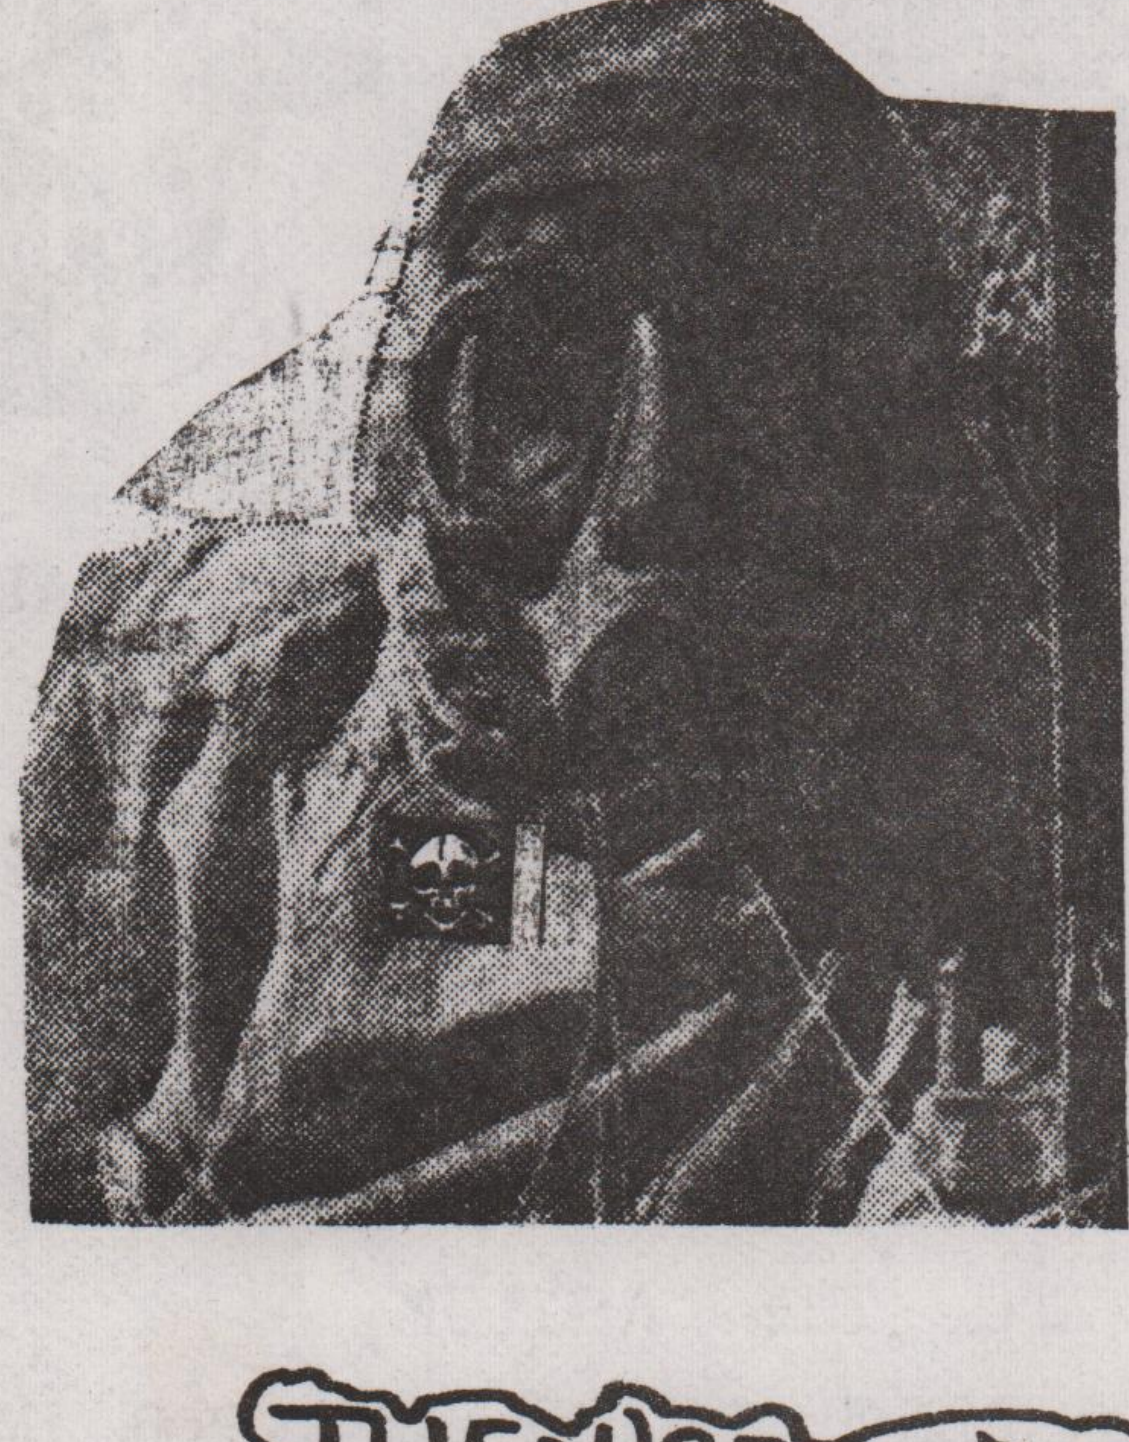

Disease warning

Pollution comes in many forms and is deadly to all living things. Just about every minute of the day poisonous fumes and deadly liquids leave factories to pollute the air and water killing off wildlife and soon it will kill us unless it is stopped. This threat has recently been increased when nuclear power plants were built. Nuclear waste is the most ~~isxxthexxmost~~ dangerous form of pollution there is and quite a few nuclear plants have leaked causing radiation threat for miles around. We dont need nuclear power we can use natural power and our future will be a much safer one . Oil and ship fules are dumped into the sea killing off innocent seabirds and sea creatures, and some rivers channel into the sea and drinking water is obtained from these rivers and sea pollution could cause water poisoning. (CANCER ?)

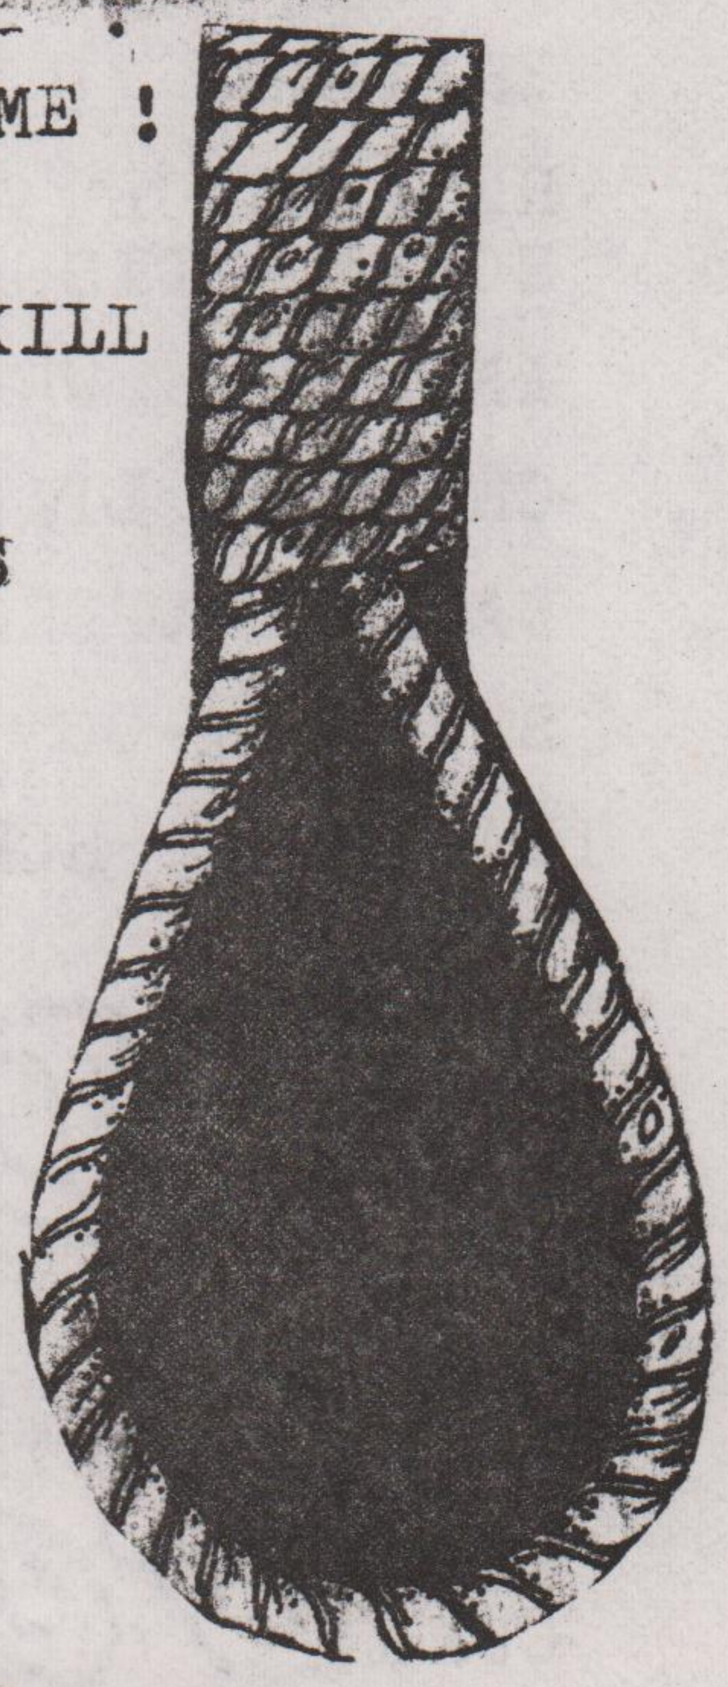

I SEE DEATH HANGING OVERHEAD
POLLUTED BODIES FULL OF LEAD.

POISONOUS FUMES THAT WE ALL CONSUME !

FLUX OF PINK INDIANS

When Flux first formed they were known as the Epileptics. They agreed to release a single (1970'S Are Made In Hong Kong) on Stortbeat records under the name of the Licks, but when the record was released Flux found out that Stortbeat had ripped them off in many ways. Feeling well pissed off about this they took up on an offer from Crass to release a single on the Crass label called Neu Smell. Since this single they have ....

....established their own record label - Spider Leg records and they've released their own e.p under the name of the Epileptics (Last Bus To Debden).
